Real-World Balanced-Trait Genetics

The only way for a calf to express its genetic merit is for it to survive and grow. That requires a **multiple-trait genetic package**. At Ellingson Angus, we have always made mating decisions based on multiple traits instead of single-trait selection. We emphasize real-world traits like **calf vigor**, **maternal functionality** and **performance**. The sale is comprised of bulls that will produce calves in demand by the feedlots and females that will keep you in the cattle business.

EA ROSETTA 7361

Her Bandwagon 1053 son sells!

We take pride in the cowherd responsible for our sale offering. It is the product of **breeding** and **strict culling** for decades. We know that a good cowherd is measured by more than EPDs. We know that **fleshing** and **mothering ability**, **foot structure**, **udder structure** and **longevity** are not "convenience" traits, but essential traits for producing a profit. We are confident that the offspring of these cows and cow families are the type to keep you in business.

Real-World Maternal Genetics

The **maternal strength** of a cowherd is the footing that a successful outfit is built upon. We're pleased to offer registered and commercial producers females that are cemented in stone by generations of elite selection. We're selling a pick of our registered cows – females that will make a positive difference in any operation. We're also again offering a large number of commercial heifer calves, bred heifers and young cows from our customers who consistently raise some of the highest value feeder calves in the Upper Great Plains.

Build the Maternal Foundation of Your Herd!

ELLINGSON ANGUS IS AGAIN OFFERING A PICK OF THE COWHERD

If you are looking to enhance your herd's maternal strength, consider the unique opportunity to choose the cow of your choice amongst the entire Ellingson Angus herd! Choice sells Feb. 6.

A HUGE SELECTION OF COMMERCIAL ANGUS FEMALES WILL SELL IMMEDIATELY AFTER OUR BULL SALE

At the conclusion of our bull sale, there will be a front-end selection of females from some of our long-time bull customers. These females are from ranches that make their living in the cattle business. These females are descendants of cows that possess functionality, production and maternal excellence.

These females are sired by Ellingson Angus bulls and have been on a complete herd health program. The bred females will have been preg-checked with calving dates confirmed and will sell in short calving intervals. If profitability in the cow business is what you seek, then plan to be with us.

Sale Location & Lodging

The sale will be held at our ranch sale facility near St. Anthony, N.D., located approximately 30 minutes from Bismarck/Mandan, N.D. From Mandan, go 19 miles south on Highway 6 until County Road 135. There, turn left (east) and follow the gravel road for 5 miles to the ranch and sale site. Use Google Maps, not GPS, for directions. A block of rooms has been reserved at the Ramkota Hotel in Bismarck. To make reservations, call (701) 258-7700 and mention the Ellingson Angus Sale to take advantage of the discounted rate. The Ramkota is near the Bismarck Airport.
